

## MUKUL BAREWAR

### Full Stack Developer (MERN) | DevOps Engineer

**Phone:** +91-7385561587

**Email:** [barewarmukul321@gmail.com](mailto:barewarmukul321@gmail.com)

**Location:** Gondia, Maharashtra, India - 441801

**LinkedIn:** <https://www.linkedin.com/in/mukulb1/>

**Portfolio:** <https://mukulportfolio.onrender.com/>

---

## PROFESSIONAL SUMMARY

Versatile Full Stack MERN Developer with 2+ years of experience building scalable web applications and automating deployments. Proficient in React.js, Node.js, MongoDB, SQL, and DevOps tools including Docker, Kubernetes, Jenkins, and AWS. Strong problem-solving skills with proven ability to reduce deployment time by 40% and achieve 99.9% system uptime.

---

## TECHNICAL SKILLS

**Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Redux, Context API, jQuery

**Backend:** Node.js, Express.js, RESTful APIs, AJAX

**Databases:** MongoDB, MySQL, MS SQL Server, NoSQL, Database Management

**Cloud & DevOps:** AWS Cloud, Docker, Kubernetes, Jenkins, Terraform, Ansible, Puppet

**Development Tools:** Git/GitHub, VS Code, Postman, Thunder Client, Rapid API Client

**Database Tools:** MongoDB Compass, MongoDB Atlas

**Monitoring & Quality:** Nagios, ELK Stack, SonarQube, Maven

**Programming Languages:** JavaScript, Python, SQL, NoSQL

**Other:** Microservices Architecture, CI/CD Pipelines, APIs, Agile Methodologies

**Soft Skills:** Problem-Solving, Team Collaboration, Communication, Time Management, Adaptability, Continuous Learning, Attention to Detail, Work Ethic, Resilience

---

## PROFESSIONAL EXPERIENCE

### Full Stack Web Developer | Octrans Technologies Private Limited

*September 2023 – Present | Pune, Maharashtra*

- Developed and maintained 5+ scalable web applications using MERN stack (MongoDB, Express.js, React.js, Node.js)
- Implemented CI/CD pipelines using Jenkins, reducing deployment time by 40%

- Orchestrated containerized applications using Docker and Kubernetes, achieving 99.9% system uptime
  - Migrated monolithic applications to microservices architecture, improving scalability by 60%
  - Optimized cloud infrastructure on AWS, reducing operational costs by 25%
  - Collaborated with cross-functional teams using Agile methodologies to deliver high-quality software solutions
- 

## KEY PROJECTS

### User Authentication API | Node.js Capstone Project

**Technologies:** Node.js, Express.js, MongoDB, NPM, Password Hashing

- **Objective:** Build a secure RESTful API for user registration and authentication
- **Implementation:** Initialized NPM project, set up Express.js and MongoDB, developed secure routes for sign up and sign in with validation, implemented user authentication using advanced password hashing techniques
- **Result:** Delivered a secure authentication system with robust password storage mechanisms and comprehensive user validation

### Image Search Application | React.js Project

**Technologies:** React.js, Unsplash API, CSS3, Error Handling

- **Objective:** Develop a responsive front-end application to search and display images using Unsplash API
- **Implementation:** Built interactive search box and button components, integrated real-time API calls to Unsplash for image retrieval, implemented error handling and loading indicators, added links to higher-resolution image versions
- **Result:** Created a fully functional image search application with seamless API integration and enhanced user experience

### DevOps Lifecycle Implementation | Analytics Pvt Ltd

**Technologies:** Docker, Kubernetes, Jenkins, Git

- **Objective:** Automate deployment, scaling, and operations of application containers across a Kubernetes cluster

- **Implementation:** Designed Git workflow, created custom Docker images, deployed applications to Kubernetes cluster with 2 replicas, configured Node Port services, automated the process using Jenkins Pipeline scripts
  - **Result:** Achieved 100% automated deployment process with zero-downtime deployments and improved operational efficiency
- 

## EDUCATION

### Bachelor of Engineering in Electronics & Communication

*Tulshiram Gaikwad Patil College of Engineering, Nagpur | June 2022*

### Full Stack Web Developer MERN Course

*Intellipaat Pvt Ltd, Bengaluru | 2022*

---

## CERTIFICATIONS

- Full Stack Web Development (MERN Stack)
  - DevOps Engineering
  - Node.js Development
  - React.js Development
  - MongoDB Database Administration
  - Microsoft SQL Server
  - JavaScript ES6+
  - Express.js Framework
  - HTML5 & CSS3
- 

## KEY ACHIEVEMENTS

- Reduced application deployment time by 40% through CI/CD automation
- Achieved 99.9% system uptime using Docker and Kubernetes orchestration
- Improved application scalability by 60% through microservices architecture implementation
- Optimized AWS cloud infrastructure costs by 25% through efficient resource management

- Successfully delivered 100% automated deployment process with zero-downtime deployments
